WE PROVIDE PRO BONO SERVICES TO HELP SOLVE YOUR ORGANIZATION'S PROBLEMS

By evaluating current processes and systems, our services provide improved operations and efficiency to allow your business to grow to the next level.

WHO WE ARE?

The Institute of Industrial & Systems Engineers (IISE) is an international, nonprofit professional society that provides leadership for the application, education, training, research, and development of industrial and systems engineering.

The IISE Pittsburgh Chapter supports local non-profit organizations in the Greater Pittsburgh Area by providing pro bono services to businesses related to the application of industrial and systems engineering solutions.

HOW DOES AN ORG BENEFIT?

Is your organization struggling with an operational problem that you lack the resources or knowledge to solve? A team of professional and student members will deliver practical solutions backed by our deep industry expertise. Services such as:

- Facility Layout
- Capacity Planning
- Process Improvement
- Inventory Management

HOW WE WORK ?

1. Express interest participating in pro bono support through our website or email
2. Our team will evaluate needs and reach back out with more information
3. If chosen for pro bono support, our team will set up preliminary calls to further discuss the vision of the project
4. Through partnership with a project coordinator, the team will provide the pro bono services to reach your organization's goals
